The Jungle Book

Workbook · Sections 1–14

Use with the reader. For each story: 20 word cards, 20 fill-in-the-blank questions, notes on old words and old expressions, the list of updated words, and questions to talk about. For each song: notes on the old words and one question.

Text: Rudyard Kipling, The Jungle Book (1894), public domain (Project Gutenberg edition). Every sentence and event is kept; only words no longer in everyday use were replaced with today's words. Markings and exercises were added by the English Book Club.

How to Use This Workbook

1. Read the story in the reader. Most stories take two meetings: words 1–10 come from the first half, words 11–20 from the second half.
2. Study the word cards for your meeting.
3. Do the practice questions without looking back (questions follow the story in order).
4. Read the notes on old words (†) and old expressions (※), and the list of words we updated.
5. Read the song after each story and choose a question to talk about at the meeting.

highlighted — a word studied in the workbook

dotted † — an old word (or old meaning) kept on purpose (see the workbook)

blue line ※ — an old expression that people no longer use (see the workbook)
